## K12 Virtual Learning Partnership

<http://vanguard.gtc.edu>

# VANguard fact sheet

# Benefits for VANguard partners

- Gateway Technical College promotes learning opportunities for our K12 partners through advanced technology. VANguard is the college's distance learning initiative in which the partners leverage state-of-the-art technologies including including video classroom technology, online learning tools, and emerging technologies to meet the instructional needs of our students.
- These partnerships are facilitated through technical assistance contracts with Gateway Technical College.

The VANguard initiative allows Gateway to work closely with K12 partners to empower them to:

- Share coursework allowing schools to expand offerings which will include career/program related offerings in Gateway's programs.
- Participate in enrichment programming.
- Take part in virtual staff development programs and community programs.
- Use videoconferencing technologies to reduce travel costs.

Access to college level and high school level courses you currently aren't able to offer your students
